Made Fresh

Most foods that are naturally rich in vitamins and minerals lose nutrients over time, so the faster those foods get from farm to plate, the better they are for you. That's why we source local natural products from suppliers and farmers in Alberta.

Made Convenient

At Made we believe time is a precious commodity best spent doing the things you love, with the people you care about most. We put the time into sourcing, prepping and cooking so that you don't have to.

Made Using Local Farms

Supporting local business is in our DNA at Made. We believe quality is better than quantity and are proud to work with smaller producers who put their heart and soul into their harvests.

Made by Inspired Chefs

Our chefs are passionate about crafting wholesome and flavourful restaurant quality meals from the finest local ingredients. They work closely with our holistic nutritionist to develop meals that are good for you and taste even better.

Made Affordable

With items ranging from \$3 - \$16 our menu offers great tasting, nutritious items for every budget. From snacks, to meals, at Made we're committed to offering good, wholesome food conveniently and affordably."
